Hon. A. Grandeland,  
Marshall County,  
Warren, Minn.

Dear Sir:--

We are of the opinion that the work that shall be done during the remaining days of this campaign, will determine whether or not the next Congress shall be Republican or Popocratic. The election of McKinley and Hobart is an assured fact, but a Republican Congress is essential to general prosperity and continued party success. The League desires to make itself useful and helpful until the campaign is ended. We hope that you will seek the co-operation of the league and campaign clubs in your county. They can be of great assistance to you in advertising and arranging for your public meetings. They can distribute literature and can poll your precincts. The officers of these clubs can delegate certain members to assist you on election day, to the end that all Republicans and all believers in honest money and good government will not neglect their duty, but will be at the polls voting as they believe. The young Republicans throughout the land want to serve their party and their country. Give them an opportunity.

Very sincerely,

*M. J. Dowling*  
Secretary.

*G. D. Woodmansee*  
President.
